WHAT WE DELIVER

Services shaped around your work package

01 Crash barrier supply & installation

W-beam and Thrie-beam barriers. Supply-only or supply-and-installation enquiries reviewed against approved drawings and specifications.

02 Repair, maintenance & re-fixing

Accident-damaged barrier re-fixing and replacement, with material, access and traffic responsibilities defined for each package.

03 Railway W-beam fencing

Post and beam placement, hammer / auger operation, drilling, shifting and concrete support within the agreed scope.

04 Civil & water infrastructure

Water-tank and distribution-pipeline execution experience, alongside defined highway and road subcontract packages.

MECHANISED EXECUTION EXPERIENCE

Hammer and auger operation, drilling and DDIPL machine-operation scope are recorded in project work orders and invoices.
